Programme — One Shilling

Piano Music

FROM THE 11th RELEASE OF
DECCA LONG PLAYING **ffrr** RECORDS

Despite the enormous variety of music and tone colour available from the orchestra, and despite the fullness and brilliance of the organ, the piano retains its place in the hearts of music lovers as a favourite. With justification, too, for in its own way it can offer more satisfaction than any other instrument or combination.

The eleventh release of Decca long playing ($33\frac{1}{3}$ r.p.m.) full frequency range records is particularly rich in piano music, and there are many other piano records to be found in the Decca catalogues.
